RS232 ComStamp

USD \$10.00

Product Info

- provides RS232C interface function for MicroStamp11 (instead of Docking Module)
- can be used anywhere you need an RS232C-to-TTL UART interface
- 6-pin connector for +V, GND, TXD, RXD, RTS, and CTS connections
- plug into solderless breadboard (has a 6-pin DIP footprint-- choose **SB connector option**, as shown in the photo)
- standard 9-pin D-sub for RS232C level outputs
- red and green activity LEDs provided for RX and TX monitoring
- operates on 3V or 5V
- needs regulated 3V or 5V from your circuit
