McMaster U. COMP ENG 2DP4 Bundle

USD \$102.00

This bundle includes an EsduinoXtreme board (Rev.1) and a USB DMLT debugging pod required for the COMP ENG 2DP4 Microprocessor course. The educational discount has already been applied to the price.

Notes about ordering this product:

- Be sure to select Canadian Dollars, and then click on the Change Currency button to activate it, before Checkout. If you don't do this, your credit card issuer may charge you a foreign exchange fee!
- If you wish to pickup your order at our downtown Toronto office (see [Contact information](#)) during regular business hours (9 - 5, M - F), please select Counter Pickup as your shipping option during Checkout. It's best to prepay online with a credit card or PayPal, but you can opt to pay with cash at our office (exact change is appreciated). Debit and credit cards are not accepted at our office!
